

ALUMINUM GANTRY CRANE

Lightweight and portable lifting

Lightweight: Made from lightweight aluminum track, the components of the gantry crane may be easily lifted and transferred from location to location.

Adjustable Height: The adjustable height ensures a single ergonomic lifting solution for low headroom area, and wider lift range in other areas.

Collapsible for easy storage: Simple set up and break down allows the gantry to be collapsed and stored when not in use.

Underhung Trolley: Included to eliminate need to specify and purchase separately to complete the system.

Options:

- Ratchet adjusted height
- Inflatable pneumatic wheels for rough surfaces

Aluminum Gantry Crane Quick Facts:

| | |
|-----------------------|-------------------|
| Available Capacities: | Up to 2 Tons |
| Standard Spans: | Up to 20' |
| Height Under Boom: | 6-12' |
| Accessories Included: | Underhung trolley |
